SUMMARY

Computer Engineering graduate with hands-on experience in Frontend Development using HTML5, CSS3, JavaScript, React.js, Bootstrap, Git, and GitHub. Developed responsive web applications including e-commerce platforms and booking systems. Familiar with REST APIs, responsive design, and modern web development practices. Currently expanding expertise in Generative AI, LangChain, Retrieval-Augmented Generation (RAG), and LLM-based applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap

Tools: Git, GitHub, VS Code, npm

AI & Python: Python, OpenAI API, LangChain, RAG, Generative AI

PROJECTS

🔄 CARCARE

- Developed a responsive car wash booking platform using HTML5, CSS3, and JavaScript.
- Implemented user registration and appointment scheduling features.
- Built an admin dashboard for customer and service management.
- Optimized website responsiveness across mobile and desktop devices.

🔄 CRYSTALZONE

- Developed a responsive e-commerce frontend using React.js and Bootstrap.
- Built reusable React components for maintainable code architecture.
- Implemented product filtering, shopping cart, and checkout interfaces.
- Improved user experience through responsive and clean UI design.

🔄 E-SHOP

- Developed an e-commerce platform using React.js.
- Implemented authentication, product listing, and cart functionality.
- Designed an admin panel for product and order management.
- Applied responsive design principles for cross-device compatibility.

INTERNSHIP

Frontend Developer Intern

SoftColon Technologies

- Assisted in developing responsive web interfaces.
- Worked with HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with team members on frontend development tasks.

EDUCATION

Bachelor of Computer Engineering

Apollo Institute of Engineering and Technology

CGPA: 8.49 | Graduated: June 2025

H.S.C

Arpan International School

June 2021

CERTIFICATIONS

- GenAI with Python V2 (40+ Hours) – ChaiCode
- Responsive Website using HTML5, CSS3, JavaScript and Bootstrap – Infosys Springboard
- Full Stack Development Course – Red & White Skill Education
